

THE ENGLISH INSTITUTE

Learning English for your future!

Why are we so special?

Our success is built on the following uniqueness:

1. Our *original, customised learning* materials are designed by our own experienced English scholars and supervised by Graham Boardman, targeting the genuine need of students. We set both short and long term targets to help students to achieve a high level of success.
2. Our courses are aimed at developing skills in:
 - comprehension
 - grammar and expression
 - written communication (extending vocabulary, improving writing style and developing essay writing technique)
 - creative writing
 - public examination practical skills
3. In our courses, students are not only learning but also meeting challenges. Students are encouraged to develop their command of English appropriate to their potential and ability.
4. Besides classroom teaching, registered students will be able to get full access to our *online learning database* to download reading materials and upload their assignments.

Enrol in one of our courses and give your kids a competitive edge.
